Quite enjoyable puzzler, well worth the asking price.. This was a very fun, mildly challenging game that was fantastic to end my evenings. Unfortunately, my gameplay ended only after an hour and a half. I think that should be key in weighing your purchase, I really wish there were more levels; they did an excellent job of diversifying the solutions.. u2b50u2b50u2b50u2b50u2b50. pretty fun puzzle game i would suggest buying. killed an hour wasnt that hard.

<https://www.youtube.com/watch?v=CMpCUVNr0uU> This game was an absolute delight to play. The game is very simple, with you highlighting (or darkening) the hexagons in your path to complete the level. As advertised, the game does have a relaxing soundtrack, and was enjoyable for the time that I've played it. This is a wonderful game for the casual gamer and is just a relaxing way to challenge your brain. For both it's simplicity, which allows it to run on almost any computer, and its cheap price, I'd definitely recommend this game 10 times over.. Now that the developer has reduced the price from \$2.99 to \$0.99 it is easy for me to recommend. There's only enough content here to keep you engaged for about an hour but for a dollar it's worth it. The puzzles are well designed and the background music is very soothing/relaxing.. u2b50u2b50u2b50u2b50u2b50
